PROFESSIONAL SUMMARY

Passionate Computer Engineering graduate with strong foundation in Java, Spring Boot, and backend development. Demonstrated ability to build scalable web applications, optimize database performance, and implement efficient solutions. Skilled in data structures, algorithms, and system design with hands-on experience in full-stack development through internships and academic projects.

TECHNICAL SKILLS

Programming Languages:	Java, JavaScript, SQL
Frameworks & APIs:	Spring Boot, Spring MVC, Hibernate, REST APIs, Node.js
Databases:	MySQL, MongoDB, PostgreSQL, Query Optimization
Tools & Platforms:	Git, Maven, Socket.io, JWT

PROFESSIONAL EXPERIENCE

Java Full Stack Developer Intern

Jan 2025 - Apr 2025

Zidio Development

- Designed scalable web applications using Spring Boot and MySQL serving 1000+ concurrent users
- Implemented RESTful APIs with optimized database queries, reducing response time by 40%
- Developed enterprise-grade applications following OOP principles and design patterns
- Collaborated with cross-functional teams to deliver high-performance backend solutions

Java Intern

Jan 2025 - May 2025

Qspider

- Gained comprehensive understanding of Core Java, OOP concepts, and programming fundamentals
- Learned advanced Java concepts including exception handling, collections, and multithreading
- Practiced coding with data structures, algorithms, and design patterns
- Developed problem-solving skills through hands-on programming exercises

Frontend Developer

Jun 2024 - Jul 2024

Compatible Solutions

- Developed responsive web applications with 100% mobile compatibility
- Integrated React.js components for dynamic content rendering, improving loading speed by 30%
- Collaborated with backend teams to consume RESTful APIs efficiently

KEY PROJECTS

E-Commerce Web Application

Java, Spring Boot, Hibernate, MySQL, REST APIs

- Built full-stack e-commerce platform with user authentication, product catalog, and shopping cart
- Implemented secure payment gateway integration and order management system
- Optimized database queries using Hibernate ORM, improving response time by 35%
- Developed RESTful APIs for seamless frontend-backend communication

Student Management System

Java, Spring Boot, Hibernate, PostgreSQL, Thymeleaf

- Designed comprehensive student management system with course enrollment and grading features
- Implemented role-based access control for students, teachers, and administrators
- Created automated report generation and email notification system
- Utilized Hibernate for efficient database operations and transaction management

Real-Time Chat Application

Node.js, Express.js, Socket.io, MongoDB

- Developed real-time messaging application supporting multiple chat rooms
- Implemented WebSocket connections for instant message delivery and user presence
- Built user authentication system with JWT tokens and session management
- Integrated MongoDB for efficient message storage and retrieval

EDUCATION

Bachelor of Engineering - Computer Engineering CGPA: 7.5/10
Gujarat Technological University, Ahmedabad
2021-2025

CERTIFICATIONS

- Data Fundamentals - Industry recognized credential
- Deloitte Technology Job Simulation
- Academic Excellence - Consistent high performance
